- **Design:** UI/UX, Webflow

## Professional Experience

### 2025 : Full-Stack Developer – [ETF Insider](#)

- Worked as a front-end developer in a finance platform in a team of 3. In this product I maintained and developed features across all product facades, using AWS, NextJS, d3.js, Strapi, Svelte and various other tools.
- In this role i had gained a lot of experience in drawing information graphs using d3.js

### 2023 : Full-Stack Developer – BeClick

- Developed an online contracting portal for city hall garbage disposal using Flutter, Firebase, and GCP.
- Designed and implemented a cross-platform solution supporting custom user roles, web dashboards, and a mobile app.

### **2022 – 2023: Front-End Developer – CoinHaven**

- Built and maintained the client side of a crypto banking platform in Svelte.
- Focused on onboarding flows, registration pages, and banking interfaces.

### **2020 – 2022: Web Developer – Brotame**

- Delivered business and landing pages for global clients using a wide variety of technologies including: Webflow, Vue.js, Svelte, Airtable and Pipedream.
- Streamlined development and deployment processes to meet diverse client needs.

### **2019 : Senior Developer / Team Lead – DiagnosticsAI**

- Led a team of 2 developers for a medical diagnostics project using Vue.js, Python, and AWS.
- Conducted code reviews, enhanced performance, and ensured responsive UI design across devices.

### **2017 – 2018: Mentor / Teacher – Coding Academy**

- Assisted students in developing web applications using JavaScript, VueJS, Node, MySQL, MongoDB, and various other tools.
- personally taught and guided students throughout the course, helping with class assignments, homework and eventually a final project.

### **2014 – 2016: Java Backend Programmer – Diwip / Tangelo**

- Working as a server side Java developer on social casino games, supporting 10,000+ concurrent users, using JavaEE, MySQL and Couchbase to support game logic, data gathering and analysis.
- Created custom monitoring tools, improving system uptime and developer productivity.

## PERSONAL

I thrive on learning anything new and challenging. I have many hobbies ranging from music to fire twirling. I'm a drummer in a band. I also enjoy surfing and snowboarding.
